

**“Get-to-know” introductory and welcome day from
Data Spaces Support Centre (DSSC) to
Horizon Europe Projects in Data sharing in the common European data
spaces and Strengthening Europe’s data analytics capacity
(HE Cluster 4 – 2021/2022 – Data - 01)**

February 23rd, 2023. Online

09h – 15.00h CET

Connection details:

The Data Spaces Support Centre (DSSC)

The Data Spaces Support Centre (DSSC), as described in the Digital Europe Programme, is setting up and operating a Support Centre to operationalize the European Strategy for Data. This Data Spaces Support Centre will facilitate common data spaces that collectively create an interoperable data sharing environment, to enable data reuse and secondary use within and across sectors, fully respecting EU values, and contributing to the European economy and society. More info at <https://dssc.eu/>

Data sharing in the common European data spaces projects

A block of 26 Horizon Europe projects (under Horizon Cluster 4 – 2021/2022 – Data – 01 call: World Leading Data and Computing Technologies) which are working under common objectives, including:

- making Europe the most successful area in the world in terms of data sharing and data re-use while respecting the legal framework relating to security and privacy and fostering collaboration and building on existing initiatives,
- making the EU fully autonomous in processing, combining, modelling and analysing large amounts of data for efficiently predicting future courses of action with high accuracy and advanced decision-making strategies.

DSSC must establish a strong collaboration pipeline with research and innovation projects developing knowledge, tools, and assets for Data Spaces.

“Get-to-know” introductory and welcome day

This “Get-to-know” introductory and welcome day, organized by BDVA as part of the **Data Spaces Support Centre** activities (<https://dssc.eu/>), is an opportunity for these projects to present their mission and objective in a wide audience comprising of DSSC consortium partners, the overall portfolio of research projects, industrial stakeholders and beyond interested in Data Spaces. It might serve as a first touchpoint of these projects with DSSC, paving the path to identifying their expected contribution towards Data Spaces and intersection points.

The aim of this “Get-to-know” introductory day is:

- To allow the projects to present their mission and objectives and to identify their expected contributions to the European Common Data Spaces
- First identification of collaboration opportunities among the projects and with the DSSC
- To trigger a long term collaboration with the DSSC

The day is structured in time blocks, combining projects contributing to the same topic. Some of the projects were already present at a session organized with predecessor projects (H2020-ICT13) at [EBDVF2022](#). With some many projects and presentations in a single day our expectations don't go beyond establishing a first touch point for future deep dives per topic planned. Most of the projects just started very recently.

AGENDA: February 23rd, 2023 **(provisional draft agenda)**

Time (CET)	TOPIC
09:00 – 09:40	Welcome and Introductory Notes from DSSC and EC <ul style="list-style-type: none"> • Kimmo Rossi (Head of Sector "Research and Innovation Execution in the DVC (Data Value Chain)" - EC DG Connect) (TBC also representation from EC DSSC PO) • Boris Otto (Fraunhofer ISST – DSSC project Coordinator) (TBC) • Tuomo Tuikka (VTT - DSSC) • Edward Curry (Insight SFI - DSSC)
09:40 – 10:30	Topic: Technologies and solutions for compliance, privacy preservation, green and responsible data operations (HORIZON-CL4-2021-DATA-01-01) (Projects started around Q3 2022) (around 7-8 minutes per project) <ul style="list-style-type: none"> • GLACIATION • MobiSpaces • TANGO • TRUSTEE • TEADAL
10:30 – 10:40	Short break
10:40 – 11:50	Topic: Technologies for data management (HORIZON-CL4-2021-DATA-01-03) (Projects started around October 2022 or later) <ul style="list-style-type: none"> • Green.Dat.AI • EnRichMyData • SEDIMARK • Wataverse • DataBri-X • STELAR • HPLT
11:50 – 12:00	Short break

12:00 – 12:35	Topic: Technologies & solutions for data trading, monetizing, exchange and interoperability (HORIZON-CL4-2022-DATA-01-04) (Projects started around January 2023) <ul style="list-style-type: none"> • FAME • DATAMITE • PISTIS • UPCAST
12:35– 13:00	Longer break
13:30 – 13:25	TOPIC: Methods for exploiting data and knowledge for extremely precise outcomes (analysis, prediction, decision support), reducing complexity and presenting insights in understandable way (HORIZON-CL4-2022-DATA-01-01) (Projects started around January 2023) <ul style="list-style-type: none"> • CREXDATA • TEMA • ExtremXP
13:25 – 13:35	Short break
13:35 – 14:45	TOPIC: Extreme data mining, aggregation and analytics technologies and solutions (HORIZON-CL4-2022-DATA-01-05) (Projects started around January 2023) <ul style="list-style-type: none"> • NEARDATA • SYCLOPS • EXA4MIND • EFRA • EMERALDS • EXTRACT • Graph-Massivizer
14:45 – 15:00	Summary of outcomes and next steps
15:00	End

Projects are kindly requested to prepare a 7-8 min presentation with maximum 4 slides including when possible:

- Overall overview of the project. Mission and objectives. (1-2 slides maximum)
- Concrete expected contributions to the European Common Data Spaces
- Identified or expected needs for collaboration with Data Spaces and other initiatives (e.g specific vertical data spaces, standardisation bodies)

This introductory day is open for participation to any interested stakeholder.

Please contact savvas.rogotis@core.bdva.eu to confirm your participation and provide the name of the person presenting.
